RESEARCH
INTERESTS

Reinforcement learning and approximate dynamic programming, robust and risk-averse optimization, machine learning, applications.

EMPLOYMENT

◇ **Assistant Professor**, Computer Science Department, University of New Hampshire, Durham, NH
(August 2016 – present)

◇ **Research Staff Member**, IBM T.J. Watson Research Center, Yorktown, NY
(December 2011 – August 2016)
(Business Analytics/Solutions) and Mathematical Sciences

- · Precision agriculture, forecasting and optimization
- · Online recommender and personalization system
- · Robust supply chain optimization, revenue management, customer models

◇ **Postdoctoral Researcher**, IBM T.J. Watson Research Center, Yorktown, NY
(July 2010 – November 2011)
Department of Business Analytics and Mathematical Sciences

- · Supply chain optimization and disaster response *Department of Business Analytics and Mathematical Sciences*

◇ **Research/Teaching Assistant**, University of Massachusetts Amherst
(September 2005 – June 2010)
Resource bounded reasoning lab

◇ **Researcher and Developer**, Whitestein Technologies
(October 2003 – August 2005)
Optimization of large-scale production and transport processes.

- · Research on Multi-agent systems and optimization
- · Combinatorial optimization for production planning and vehicle routing

◇ **Programmer**, OneTwoTech (June 2001 – June 2003)
Design, implementation and evaluation of new technologies for a web-application server, using: Advanced .NET Framework, COM+, MS SQL Server, Web Services

◇ **Programmer** SWTeam (July 2000 – July 2001) Implementation of high performance components for client-side data management for multi-dimensional (OLAP) databases using: C++, MS SQL.

EDUCATION

◇ **University of Massachusetts Amherst**, Amherst, MA, USA. (2005 – 2010)
Ph.D. in Computer Science: September 1, 2010, GPA: 4.0/4.0
Advisor: Shlomo Zilberstein
Thesis: Optimization-based Approximate Dynamic Programming
Committee: Shlomo Zilberstein, Andrew Barto, Sridhar Mahadevan, Ana Muriel, Ronald Parr

◇ **University of Massachusetts Amherst**, Amherst, MA, USA. (2005 – 2008)
M.Sc. in Computer Science, May 2008, GPA: 4.0/4.0

◇ **Univerzita Komenskeho**, Bratislava, Slovakia. (2000 – 2005)
B.Sc. in Computer Science, graduated: June 2005
Major in *Artificial Intelligence* and *Parallel Algorithms*
GPA: 3.84/4.0 Graduation thesis: *Learning Parallel Portfolios of Algorithms*

GRANTS
◇ Co-authored a funded AFOSR grant "Adaptive Optimization Techniques for Large-Scale Stochastic Planning", FA9550-08-1-0171

◇ Took a class on writing grant proposals: "The Grant Process: From Solicitation to Award "

AWARDS
◇ (Co-author) Best Student Paper Award, UAI 2016

◇ Awarded Graduate School Fellowship, University of Massachusetts Amherst, 2008-2009

◇ Passed portfolio (Ph.D. candidacy exam) with distinction, University of Massachusetts Amherst 2008

◇ Received: "Outstanding Synthesis Project" award for "A linear programming approach to bounds and basis construction for Markov decision processes", 2007-2008

◇ 2nd Place in Tetris Domain in Reinforcement Learning Competition 2008 (with Jeff Johns and Colin Barringer)

◇ Invited to Dagstuhl seminar 09181: "Sampling-based Optimization"

◇ Final Round of Microsoft Fellowship 2007/2008

◇ AAAI Doctoral Consortium 2009

PROGRAMMING
EXPERIENCE
◇ Python, C/C++, F#, Java, Scala, C#, Matlab, R, SQL, MongoDB, GDAL
